

# CEU EVENTS 2021 TO 2023

Clinical excellence is one of THERAPY 2000's core values. As a benefit of joining THERAPY 2000, you have access to live and on-demand, high-quality, free CE courses all year long! Below is a sampling of events we've held.

"One of the best things that T2K/GAT offers is (essentially) unlimited CEUs. Not only do they pay for you to obtain your CEUs, but they also offer so many opportunities for you to take a CEU course throughout the year, and for FREE!"

**STEFANIE B**  
SLP Clinical Manager

"At T2K I love the mentorship that we provide to all therapists, not just new grads. Also, the CEUs, we provide an abundance of CEUs throughout the year for all employees."

**MICHELLE M**  
Division Director, Speech Pathologist

"We have so many relevant CE's put on by our clinical excellence team as well as outside providers that I just continue to develop my skills and grow in my leadership and development skills."

**KARLA C**  
Lead Clinical Manager,  
Speech Language Pathologist
